CALIBRATION ORDER FORM FOR MMC Electronic Gauging Tape

Date:	
Bill to address:	Address for return shipment:
Client Technical Contact:	For Distributors and Resellers Only
Name:	Company Name on Calibration Report(s):
Phone:	
Email:	☐ Same as above (use my company name)
DEVICE & CALIBRATION INFORMAT	TION
Temperature Sensor	
Procedure 04. Your instrument(s) will be subjected (if device is in operable condition upon receipt). I will perform and adjustment to return the device thermometer to all calibration temperatures to ob-	dout(s) and sensor(s) referenced below, at the specified test points per ICL ed to the specified series of calibration temperatures to obtain 'As Found' readings f the adjustment threshold (70% of tolerance) is exceeded at any temperature, we to in-tolerance condition, when possible. If adjustment was required, subject the stain 'As Left' calibration data. We will provide an ISO/IEC 17025 Accredited report with As Found and As Left data, with measurement uncertainty, and detailing all the
policy of this laboratory to use a guard band in th	are made, the uncertainty of the measurement shall be taken into account. It is the le decision process which is designed to reduce the probability of a false. The method and equations used for the calculation of the guard band are as per
Gauging Tape Please check as appropriate	
 Calibrate the Linear accuracy of the tall and furnish a certificate of calibration to 	pe in accordance with API Chapter 3 Tank Gauging, Section A.2.4 specifications raceable to the SI through the NIST.
